- **Sending an object:** For example, throwing a ball or a disk, kicking a ball or passing a puck, ball or ring with the appropriate apparatus.
- **Receiving an object:** For example, catching with the hands, cradling a ball with the feet, or receiving an object with a stick.
- **Dodging:** Dodging typically refers to maintaining personal space, making sure not to collide with other players or objects.
- **Change of direction:** Changing the direction your body is traveling is an extremely important skill to all games in this category.
- **Traveling in multiple directions:** An important part on both the offensive and defensive side of these games is being mobile; going forwards, backwards, to either side, and to all diagonals.

## PHYSICAL EDUCATION CURRICULUM GRADES 9-12 UNIT TERRITORY INVASION North Smithfield School Department

- **Spatial awareness:** Spatial awareness is a key concept within this category, and is useful in many other categories. Through TGfU, students can easily develop the complicated skill of recognizing their position with association of the object of play (ball, Frisbee, etc) and their opponent. Spatial awareness might be one of the most important skills a student could possess when attempting to master more complex games.
- **Change of speed:** Being able to change speed is a skill as well as a strategy within the invasion category.
- **Anticipation:** While anticipation is not a necessary skill it can be extremely valuable when playing defense in these types of games.
- **Footwork:** Having good footwork will not only improve balance, it will aid in learning all of the above skills.
